

# St. Johns County + Positive + Start Program

Math is fun, but it can also be challenging.

The + Positive + Start Program enables students to practice the prerequisite math skills needed to be successful in the mathematics course in which they are enrolled in the next school year.

Completion of the course will likely give students a positive start in math.

Please visit <https://www.stjohns.k12.fl.us/smath/positive-start-program/fag/> for important Frequently Asked Questions regarding the program.

The +Positive + Start Program supports the prerequisite skills needed for the mathematics courses listed below:

	Prerequisite Mathematics Skills Review Khan Academy Units Assigned	<a href="https://khanacademy.org/join">khanacademy.org/join</a>
M/J Grade 6 Mathematics	<ul style="list-style-type: none"> <li>Decimal place value</li> <li>Add and subtract fractions</li> <li>Multi-digit multiplication and division</li> <li>Multiply fractions</li> </ul>	Code: <b>ANDRKGEH</b>

*The + Positive + Start Program is a FREE, voluntary, non-credited, unsupported, self-paced review of math skills through Khan Academy. The goal is to give students a boost in the prerequisite math skills needed to be successful in the mathematics course in which the student is enrolled in the 2020-2021 school year. The work is meant to be done independently. Students will not be monitored or supported by an instructor. The + Positive + Start Program is not associated with any state defined mathematics course and the review of math skills is not comprehensive and/or parallel to a state defined mathematics course.*
